Ben Ford (Anthropology), Alexis Catsambis (Navy History and Heritage Command), and Jessi Halligan (Florida State University) recently completed the “Maritime Archaeology” entry for the Oxford Bibliographies in Anthropology.

The **Oxford Bibliographies** in Anthropology offer up-to-date references accompanied by short critical essays that summarize and contextualize the referenced works. This online resource combines “the best features of an annotated bibliography and a high-level encyclopedia, this cutting-edge resource guides researchers to the best available scholarship across a wide variety of subjects.”

The Maritime Archaeology entry has been accepted and will be added to the Oxford Bibliographies website in February.
